SX-E 1.12 FEATURES

LIGHT WEIGHT - 6KG

Child can pick up bike and manage on their own after a fall or dropped bike. Child quickly able to build skill as they can handle the bike as it's less than half their body weight. All family members willing to manage as bike is easily transported in back of car.

TWIST THROTTLE

True power curve built into throttle programming. Teaches child how to operate a twist throttle and manage power output. Not a push-button toy or on/ off power curve. Power selection modes: Low / Training mode - 6 km/h Med / Transitional Mode - 9 km/h High / Advanced Mode - 12 km/h

MULTIFUNCTIONAL THROTTLE

The Multifunctional Display is located on the throttle. It provides all of the necessary information about the status of your KTM SX-E 1-12. Colors light up to indicate the ride mode that has been selected, while battery life is highlighted by color. A yellow battery light appears when the charge is down to 30 % and changes to red when the levels get more critical.

ULTRA-LOW SEAT HEIGHT

Perfect for 2 - 5 year old rippers under 34 kg, with 35 - 51 cm inseam. Inspires riding confidence by allowing riders feet to be firmly planted on the ground. Allows child to "dab" foot easily when off balance. Race inspired ergonomic placement for proper body and foot positioning when standing, teaching proper bike riding skills.

QUICK CHANGE LITHIUM-ION BATTERY

Removable power tool-style interface that allows for additional batteries to be used for extended ride time. This easy-to-use technology helps any family member to be comfortable with the process.
