# SV650-A FEATURES

## Feature 1

The SV650's 645cc, DOHC, 90 degree V-Twin engine is calibrated with irregular firing intervals to create a unique heartbeat-like sound and linear power delivery. The engine has a broad range that's extremely rider friendly

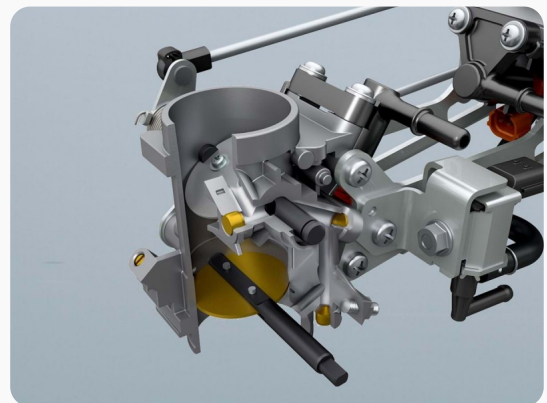

## Feature 2

The SV650's advanced exhaust system has been designed to be light and compact, while still conforming to strict new emission standards. What's more, the design also contributes to the SV650's excellent power delivery and produces a great exhaust sound too

## Feature 3

The SV650 comes with Suzuki's Low RPM Assist function that utilises the Idle Speed Control (ISC) to help boost engine rpm in launching operation or running at low speed. This new feature helps suppress engine stalls when running at slow speeds

## Feature 4

The Suzuki Easy Start System engages the starter motor at a precisely timed pre-set interval to start the motorcycle with just a push of a button. A computerised 32-bit ECM checks the status and disengages the starter motor immediately after start
